

MUSIC TASK

LI: To make music using objects you can find around your home.

TASK : Watch <https://www.bbc.co.uk/programmes/p00yygix>, a short video which shows how music can be made using everyday objects or even recycling!

Watched

Make a list of everyday objects found around your home that you could use for percussion purposes (musical objects played by striking with a hand or beater) and then have a go at exploring which different sounds they make.

Try changing your banging instrument (e.g. metal spoon/ wooden spoon/ lolly stick etc) and see if this affects the sound. Does it make a higher sound/ deeper sound? Is it a louder sound or quieter sound?

Answers

Saucepan - sound is a higher 'ching' with a metal spoon and lower 'ching' with a wooden spoon

Jigsaw box - sound is a higher 'boof' with a metal spoon and lower 'ching' with a wooden spoon

Foam pad - sound is a higher 'boom' with a metal spoon and lower 'boom' with a wooden spoon

Challenge: Watch <https://www.bbc.co.uk/teach/bring-the-noise/found-sounds/z4rcbdm>

Watched

Have a search around your home and, with permission from an adult, use these to make your own jar xylophone, big box bass, comb kazoo, hosepipe horn or any other instrument you can think of.

Please take photos of any creations you make.

It would be lovely to see how you can be creative with everyday objects.

This was fun ! Please look below for photos of my creations...
