

# The Cautious Caterpillar – Ideas for Learning

## Maths

Practise addition to 20 in a fun way with the **Addition Facts up to 20 Maths Mosaic**.

Search 'Cautious Caterpillar maths mosaics' on the site for more.

Work on taking away with this **Subtraction up to 20 Colour by Number** activity.

Search 'Cautious Caterpillar colour by number' on the site for more.

These **Multiplication and Division Challenge Cards** include different problems to solve. Use the one-star cards first and move to two stars or three stars if your child is ready.

Search 'Cautious Caterpillar challenge cards' on the site for more.

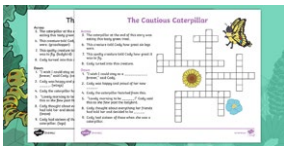

## English

Read and enjoy the story together. You can ask your children the **Guided Reading Questions** provided.

Help your child with learning vocabulary and spellings with the **Word Search** or **Crossword**.

Develop children's reading skills in fiction and non-fiction with the **Reading Comprehension Activities**.

## Science

Read all about the butterfly life cycle with the **Fact Cards**. Why not use the Internet to find out even more!

Then, complete the **Life Cycle of a Butterfly Activity**. Choose the right level for your child.

## Extra Activities

If you have access to a garden, balcony or outside area, try making your own **Minibeast Hotel!**

Use art and DT skills to make butterflies by following these **Butterfly Craft Instructions**.

## No Printer? No Problem!

- Read the reading or maths questions on a screen for children to answer on paper.
- Watch this [animated video version](#) of the story on a computer or tablet.
- Research caterpillars and butterflies on the Internet. Children could make their own fact book all about butterflies with information and pictures.
- Help your child to paint half of a butterfly. Then, fold the paper over to make a symmetrical butterfly!
- Encourage your child to write a new story about Cody the Butterfly. Maybe she's changed into The Brave Butterfly?
- Challenge children to make puppets and use them to retell the story.
- Hunt for minibeasts in the garden, if you have one. Take photos or draw pictures of the creatures you find.
