

# Social Distancing

Whitstable Junior School - Well-Being Team

Because of the Corona Virus - I am not able to be close to my friends or Teachers in school. I need to remember to keep a safe distance - this is called a Social Distance.

School will feel a bit different to how it was before - I will get to speak with my friends & Teachers, but I will not be able to touch them- This is to keep EVERYONE safe. This will stop the virus spreading.

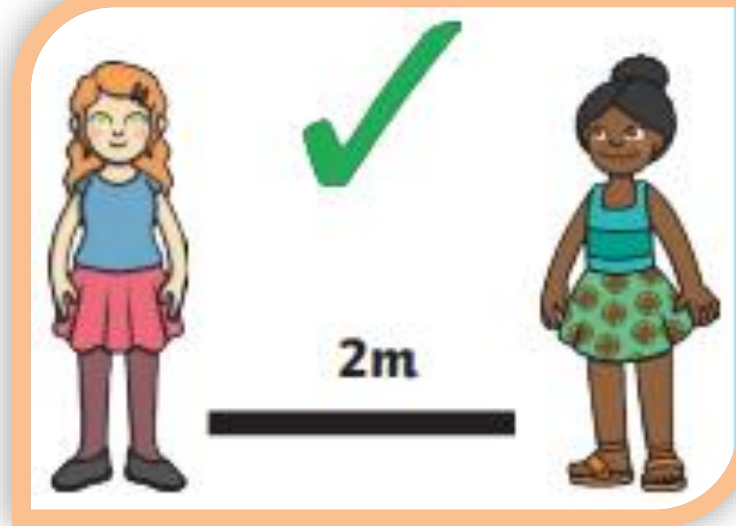

I need to remember to keep my distance.

This will make it safe for my friends to talk to me.

My friends will like it if I keep the distance.

My Teachers will like it if I keep the distance.

When I walk around school I will see signs that were not there before.

The signs in school will remind me to keep the 2 metre distance.

I need to remember that moving around school will be different from now on.

I will remember to keep the distance when I am talking to my  
friends.
