

Whitstable Junior School

Learning today for life tomorrow

Week ending 26 May 2023

A message from Ms Kent

Dear parents and carers,

Cakes! What a delicious way to end what's been a productive term full of enrichment opportunities for our children. I feel totally settled in and overwhelmed by the huge welcome I have received from the whole community.

This term we have been learning about how we can show we are a **trust**worthy member of the school community. The children have demonstrated this in their behaviour and attitudes to learning. We can **trust** our children to pay attention in class and listen to all adults in school. We can **trust** our children to be a good friend during unstructured times. We can **trust** our children to take responsibility for their actions and to reflect honestly when things don't go to plan.

We are keen to further develop partnership with you as we know this will lead to better educational and pastoral outcomes for your children. With this in mind we invite you to come and read with your child next term - see dates section below. I will also be holding Headteacher drop ins, the first of which is on Friday 9th June at 2.30 pm which will be held in the studio. This is an opportunity for you to let me know what you love about our school and any thoughts you may have on improvements and opportunities for WJS. Next term we also have parent consultations; this is an opportunity for your child's teacher to share your child's achievements with you. Consultations will take place on the 15 & 22 June. We will let you know when you are able to book on-line. I look forward to next term and all that term 6 brings – The School Fair, Sports day, Year 6 Production and enrichment week.

Wishing you all a sunny half term break,
Sarah Kent

What have the children been up to this week?

This week, **Year 3** have enjoyed making their own balanced sandwiches as part of their D.T learning. They also finished reading their text this term 'The Firework Maker's Daughter' and created a blurb to reflect the story. **Year 4** children started learning about the Battle of Muye in literacy. Children imagined that they were a soldier fighting for the Shang Dynasty and how they would have felt about being part of this battle. In maths, children have been tackling decimals, dividing 1 and 2 digit numbers by 10 and 100. They have also learnt about the impact of environmental change on the habitat of wildlife and the dangers that littering pose to their survival. **Year 5** have wrapped up their unit on Changing States by delving into the story of the 'Death of the Pancake.' This was a chance for the children to show what they had learnt over the term from our many investigations. In Maths, they have been busy getting acquainted with negative numbers and what the - symbols represents. They have been looking at it in real life contexts and applying it to problems. Furthermore, they have been practising their tenses this week and developing a knowledge of active and passive voice during Literacy. As it was better weather, they were lucky to have an Athletics session by Joe These which involved doing the hop, skip and jump, javelin and throwing. **Year 6** have been preparing for writing a newspaper as part of our Oliver unit. They have been hot-seating characters as eye witnesses to the theft of Mr Brownlow's wallet and then wrote their news report of the events. As part of their art topic, the children have begun the preparation for their printing by creating a design and making their tile. In history, the children have been experiencing what it was like to be a prisoner in the Victorian age: picking oakum and lifting weights - all in silence!

SAVE WILDLIFE!

Properly dispose of your trash and recyclables.

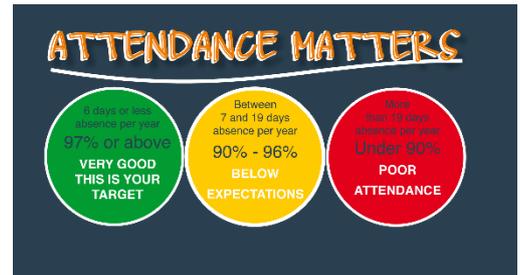

Attendance

Attendance

is:

93.28%

Thank you for ensuring your child is on time and ready to learn. Gates open at 8.30am and close at 8.45am. Let's try and increase attendance next term!

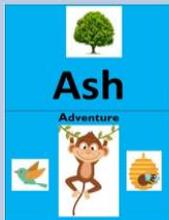

Safeguarding/Esafety

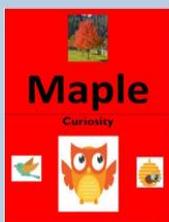

Setting up parental controls is important to safeguard your children with their online activity. With this in mind we are running a drop-in workshop where we will help you set up parental controls on your child's devices. This will take place on the 12 June at 9am in the ICT suite. Please let the office know if you would like to attend. We have become aware that some children have been accessing a website named 'omegle.' Please take time to read this information as this website is **NOT** appropriate for any primary age children. <https://www.internetmatters.org/hub/news-blogs/what-is-omegle-what-parents-need-to-know/>

Lego Club

PYXIS-social
LEGO® club

A YOUTH CLUB FOR 10-13 YEAR OLD'S INTERESTED IN LEGO®

We have developed Pyxis.Social Lego® as an offshoot of our successful youth club. From Technics to Minifigs, big scale builds to intricate inventions, we've got it all.

This club is for young people aged between 10-13 years who have a particular interest in Lego, but is particularly suited to those who are also socially lonely, isolated or need support with their social skills. We specialise in providing a low-stimulus environment for young people to thrive.

"I like how relaxed it is and the calm environment."
Young Person at Pyxis.Social

"The time my daughter spends at Pyxis is invaluable because it is the one time during the week she can relax and enjoy interacting socially, with people her own age, without having to mask her true self."
Parent of Young Person at Pyxis.Social
